industrial solutions

RIECKERMANN YOUR RELIABLE PARTNER

Since 1892, Rieckermann has been your reliable partner for industrial production and processes. With a comprehensive range of high-quality services and technology, we provide solutions tailored to match your individual needs.

With over 130 years of experience and specific expertise in several industries and markets, we open new opportunities for you and your industrial production.

Do you want to increase your profitability, improve product to market time or optimize your long-term performance? Are you interested in benefitting from emerging technology? Or, are you planning to build a new factory from scratch?

From consultancy, engineering services, financing, the supply of machinery and technology, to project and process management as well as customer care and after sales services – Rieckermann finds the best solution to support your sustainable success.

Our team of 750 employees is present in person in the Near and Middle East, Southeast Asia, and the Far East. To fulfil your expectations, we work close to the market and hand-in-hand with you on a local level.

Your first choice industrial solution provider

INDUSTRY EXPERTISE WE UNDERSTAND YOUR BUSINESS

Since 1892, we have been constantly developing our expertise. Today, we operate in a wide range of industries, providing services and technology for industrial production and processes along the whole value chain.

Thanks to our in-depth knowledge as well as our personal experience in specific industries, our team of experts can understand your needs and deliver customized solutions to make the most of your business.

- FAT/SAT
- Local content management
- Installation & calibration
- Training & local language support
- After sales service & maintenance
- Spare parts

YOUR BENEFITS

Successful project management is the key to completing your projects on time and within budget. We make this happen by offering an ideal mix of international and regional specialists with up-to-date relevant experience and expertise. This combined team expertise ensures seamless interfaces between all project aspects and results in the future successful operation of your plant.

One strong partner

Benefit from professional consultation and project management from a one-stop, turn-key service. We act as an interface between client and manufacturer, selecting highly qualified suppliers and/or partners to provide you with the desired equipment and services. A designated contact person will assist you and focus on your interests throughout the whole project, customized to your needs.

Full-service approach

Take advantage of our wide service portfolio including consulting, engineering, machinery & equipment sourcing, financing, shipping, project management, installation, after sales services, and spare parts supply. Whether you need a single machine or a complete solution, we support you throughout the lifecycle of your industrial project.

Globally at home

Your personal Rieckermann contact speaks your language, understands local regulatory requirements, and is knowledgeable about cultural differences. With our long-standing local presence, you can trust our dedicated team to source relevant expertise from our vast network of specialists and partners within diversified industries.
